### Discuss Proposed 2015 CIP Funded Projects

## **Background Information:**

Attached are the proposed 2015 Capital Expenditures that will require CIP funds from the 2015 levy. It is important to note that the proposed 2015 Budget has \$97,994 with requests equaling \$219,335.

### **Staff Recommendation:**

City staff is recommending the review of proposed expenditures with department heads and the prioritizing of all expenditures.

### **Requested City Council Action**

Review CIP funded expenditures.

# City of Grand Rapids, Minnesota

### Project # 2015/AP-1

Project Name Airport Master Plan/eALP

#### -

#### Total Project Cost: \$250,000

The Master Plan for GPZ was last updated in 1992. That plan anticipated larger aircraft to accommodate Mesaba and their recently developed relationship with Northwest Airlines. Given that GPZ no longer has scheduled air service, long term planning is needed to identify future runway length requirements.

The planning process would also involve development of an electronic airport layout plan (eALP) to comply with current FAA criteria.

#### Justification

Description

The Master Plan is needed to make sure the City/County are making planned necessary improvements at the Airport.

Expenditures		2015	2016	2017	2018	2019	Total
Professional Services		250,000					250,000

Contact

The purchase of an Enterprise License Agreement (ELA) from Azteca Systems Inc for Permitting, Land, Licensing (PLL) and Asset Management Systems (AMS) software to assist the City of Grand Rapids in managing and maintaining internal and external work flows.

#### Justification

Description

The benefits of this software include efficient processing of Building and Zoning Permits, Airport Leases, Liquor Licenses, Public Works Work Orders, Engineering Permits, and many more. This software will additionally benefit our organization in supporting the integration of other organizational software such as Laserfiche, ESRI (GIS), & SQL based financial software. The PW Department currently uses individual desktop licenses of the AMS software to manage all the work orders. The ELA allows unlimited users to utilize a web browser based solution to create and manage permits, licenses, leases, work orders, and reports in all departments to efficiently manage workflow within each department or across multiple departments and eliminates the need for paper trails and duplicity of data storage in multiple databases.

Expenditures	2015	2016	2017	2018	2019	Total
Professional Svcs-AML Conversion for PW Records	5,000					5,000
Professional Svcs-Com Dev Installation	75,000					75,000
Professional Svcs-Crystal Reports Training	5,000					5,000
Professional Svcs-SWU & Other Depts Installation	15,000					15,000
Software-API Module (Laserfiche compatibility)	5,000					5,000
Software-CityWorks ELA	23,000					23,000
Total	128,000					128,000
Funding Sources	2015	2016	2017	2018	2019	Total
CIP Fund	50,000					50,000
Storm Water Utility	78,000					78,000
Total	128,000					128,000

#### Budget Impact/Other

Using a centralized software system eliminates multiple microsoft databases which reduces the IT demand of maintaining several different softwares. The processing of building and zoning, stormwater, and righ-of-way permits can be done electronically from the field, significantly reducing inspection times.

### Project # 2015/IT-1

Project Name Replace two virtual server host computers

	Contact	Information Technology
1	Туре	Equipment
	Useful Life	5 years
	Category	Equipment
	Priority	1 Critical

Department Management Information

Total Project Cost: \$20,000

Purchase two servers to replace our first two aging virtual host machines.

#### Justification

Description

The host machines that run Vmware are critical pieces of our infrastructure since they are now housing almost all of our production servers for the City. If one of these machines were to fail, it would mean system downtime and lost productivity. It is critical that these servers stay healthy and be replaced on a regular schedule.

## 2015 thru 2019

# City of Grand Rapids, Minnesota

Project # 2015/P&R-1

# Project Name Remer/DeSchepper Park Development

#### Department Civic Ctr, Parks & Recreation Contact Civic Center Director

TypeEquipmentUseful Life25 yearsCategoryPark ImprovementsPriority2 Very Important

#### Total Project Cost: \$35,000

Per the recommendation of the updated Parks & Trails Plan, we held a public meeting with residents in the Remer / DeSchepper annexed area to determine if they would like the City to develop a park in their neighborhood. More than 25 residents attended and were all in favor of a new park that would feature off-street parking, green space, picnic tables, and play equipment. Grand Rapids State Bank has offered to donate a parcel of property in this neighborhood to the City for the development of a park.

#### Justification

Description

Using the 2014 Park Plan as a basis, conducting neighborhood meetings in newly annexed areas to determine the need for park development was identified as a priority new action.
