ANNUAL PLANNING PROCESS

In 2023, the Grand Rapids Public Utilities Commission (GRPUC) developed a new strategic plan. It is intended to serve as a roadmap for the future development and growth of utility services in our community.

To accomplish this going forward, a practical, realistic, and easily implemented process for breaking our long-range plan into clear, attainable goals is necessary. To that end:

- In the fall of each calendar year the Grand Rapids Public Utilities Commission will review and update the organization's Strategic Plan. Inherent in this process is a discussion of the most pressing matters to be addressed and the actions that are necessary to achieve GRPUC's organizational intent.
- Grand Rapids Public Utilities (GRPU) staff takes this Commission-directed information, aligns it with known and anticipated operational exigencies, and proposes a results-focused work plan and budget for the upcoming year. The suggested operational and budget plan is then reviewed, revised if necessary, and eventually approved by the Commission at its December meeting.
- Once this vote has occurred, staff performance plans, accountability metrics, and reporting mechanisms are put into place so that everything is ready for the start of the new fiscal year.

ASSUMPTIONS AND CRITICAL SUCCESS FACTORS

This plan assumes the following conditions:

- There will be no major technical or infrastructure failures, cyber or security breaches during the year.
- There will be no game-changing regulatory or legislative mandates that impact operations in the near term.
- The supply chain will be predictable and reliable.
- There is no significant change in staffing levels or skill sets.
- GRPU will not have to cope with significant natural disasters that cause lengthy outages or require unplanned infrastructure replacements.
- The status of the utility and its relationship with the City of Grand Rapids will be unchanged.
- There will be no unanticipated impacts on large ratepayers and no significant changes (gain/loss) of the customer base).
- Agencies will review submitted plans in a timely manner.
- There are no major safety incidents resulting in injury and/or investigation.

The year 2025 is the second cycle during which the organization will be working to

make progress toward achievement of the strategic plan goals developed in 2023. This plan, created with input from nearly 100 GRPU stakeholders, reflects a vision for taking GRPU to a new level of excellence and relevance in Grand Rapids.

We deem the critical success indicators for our work in 2025 to be:

1. Ensuring an accurate assessment of GRPU's financial capacity and successful management of risks.
2. Maintaining and improving employee culture.
3. Effective and efficient collaboration with the City of Grand Rapids.
4. Successfully maintaining and improving the community's perception of the dynamic public asset that is GRPU.
5. GRPUC support for the projects in this plan and the staff who will carry them out.

In general, this plan identifies only new or additional activities that will be undertaken in 2025. It does not state most ongoing "business as usual" activities or describe activities that will be discontinued if that decision falls within staff purview. It also does not describe every operational activity necessary to achieve the above critical success indicators or the supporting activities listed. The intent in the plan that follows is to enumerate the specific activities and deliverables that will be undertaken in support of the GRPU Strategic Plan during the 2025 fiscal year, and to provide GRPUC and staff members with an understanding of what will be necessary to achieve those ends.

STRATEGIC PILLARS¹

Uninterrupted, High Quality Utility Services (US)

GRPU recognizes that nothing else we do matters more to our customers than the delivery of reliable, affordable, and sustainable services. GRPU's Strategic Plan sets the following goals for the next five years related to uninterrupted, high quality utility services.

1. GRPU will develop and begin to execute a long-term (i.e., no less than five years, no greater than twenty years) infrastructure replacement plan that also accounts for anticipated system growth of up to 20% and gradual undergrounding of the electrical system.
2. GRPU will complete the renovation of its water treatment facility to improve operations and ensure adequate future capacity.
3. GRPU will complete the process of jetting its sanitary sewers.
4. GRPU will assess and address customer expectations regarding future technology upgrades they may expect or desire as our system evolves.
5. GRPU will adopt policies and develop contingency plans to:
 - a. manage risks to infrastructure that may result from the activities of bad actors.
 - b. manage risks associated with grid failures or the inability of our single source of power to meet its obligations.

To reach these strategic objectives, GRPU will work toward the following operational outcomes for the calendar year 2025:

Goal	Deliverable	Responsible	Target Date
US-1, US-4, FM-1, OE-2	Substantially operating ERP system (approximately 90% of modules functioning and collecting data)	Jean	06/30/2025
US-1	Substantially complete two electric undergrounding projects	Chad	12/31/2025
US-2	Water treatment plan (WTP) renovation project is scoped, engineered, bids received, and contractor selected	Steve	09/30/2025

¹ Note: when a goal pertains to more than one strategic pillar, it is shown under all pillars for ease in tracking and clarity around the operational activities related to each area.

Strategic and Sustainable Fiscal Management (FM)

GRPU aims to be proactive with its resources, recognizing that all decisions are made on behalf of past and future ratepayers. GRPU's Strategic Plan sets the following goals for the next five years related to ensuring strategic and sustainable fiscal management to support ongoing operations and inter-generational equity.

1. GRPU will develop a financial forecast model that accounts for capital expenditures as described in objective US-1 above, including inflation assumptions, target dates, key performance indicators, and decision criteria. The model will account for supply chain issues that may require placing orders years in advance of anticipated project execution.
2. GRPU will take preparatory steps to ensure debt or emergency funding can be obtained quickly should an unexpected infrastructure failure require unplanned expenditures that cannot be addressed with existing resources.
3. GRPU will explore and, when both feasible and practical, adopt an updated rate structure that accounts for the evolving use patterns resulting from electrification (e.g., transition to electric vehicles, distributed energy resources/adoption of solar by home and business owners, etc.).

To reach these strategic objectives, GRPU will work toward the following operational outcomes for the calendar year 2025:

Goal	Deliverable	Responsible	Target Date
US-1, US-4, FM-1, OE-2	Substantially operating ERP system (approximately 90% of modules functioning and collecting data)	Jean	06/30/2025

OE-1, FM-1	Focus on tracking and reporting in project management software to improve efficiencies	Julie	12/31/2025

Engaging and Educating the Community (EC)

GRPU will strive to operate in a manner where communication is perceived to be relevant, effective, frequent, and respectful. To that end, GRPU's Strategic Plan sets the following goals for the next five years related to engaging and educating the community in matters related to utility services.

1. GRPU will develop and execute a comprehensive community education plan for adults and children to increase community knowledge of GRPU utility services, provide tactics ratepayers can employ to influence usage and costs, and teach interested parties about environmental impact. GRPU will develop and execute a robust community communication plan for the purpose of informing stakeholders about GRPU's activities, explaining the impact of GRPU initiatives such as the battery plus storage installation, inviting their involvement in important GRPU initiatives, and fostering an increase in the perceived value of hometown utility services vis- à-vis the alternatives.
2. Supported by the work in objectives EC-1 and EC-2, GRPU will work with city and county stakeholders to position the features and benefits of GRPU's services as an important value- add for those seeking a new residential or commercial home.

To reach these strategic objectives, GRPU will work toward the following operational outcomes for calendar year 2025:

COMMUNICATION, REPORTING, AND ACCOUNTABILITY

Communication Plan

Inherent in the success of this operating plan is accurate and timely communication of information between the relevant stakeholders.

Reporting

The general manager will report on the status of each approved goal and deliverable in a document prepared for the GRPUC Commission meeting immediately following the conclusion of each quarter (April, July, and October, and January of the following year). Items requiring Commission action will be placed on the agenda.

Staff Accountability

A success sharing structure will be implemented in 2025 that incentivizes high performance and accountability from the staff to achieve the objectives in this plan. Each member of the staff will have individual performance plans listing key performance indicators (KPIs) that are tied to a plan rewarding both team performance and organizational attainment of the operational goals.

Commission Accountability

It is important to recognize that some of the goals and objectives in this plan will

require assistance from GRPUC members, city staff, and others. The general manager and the GRPUC president will need to work closely with city staff and others to ensure goals are met. When goals are met, GRPU advances its mission and ratepayers are well served. That is the definition of success.
