We appreciate your interest in water sampling and recognize the value of testing. As a community, the more we know, the more we can mitigate the problem. We thank you for helping be a part of the solution.

You will need to be home at the time of the sampling. By requesting testing, you understand that your test results will be public information. Information shared is limited to a map point and test results as shown on the GRPU Monitoring Map.

Please initial here indicating your understanding of public data usage

Upon receipt of this form, Grand Rapids Public Utilities will contact you to set up an appointment and to confirm that it is feasible to sample at your location.
